

CHOOSING THE CORRECT PAPER

Stock Weight	Stock Description	Recommended Usage
80	Copier paper	Text pages within simple books, simple staple jobs
100	Quality copier paper	Colour printing, low quality office stationery
120	Premium copier paper	Business stationery, light weight flyers/leaflets
140	Heavy weight paper	Premium quality business stationery, flyers/leaflets
160	Light Weight card	Covers for simple products, especially good when stock is tinted
210	Medium Weight card	Covers for quality products, especially good when stock type is silk or gloss
280	Heavy weight card	Covers for premium products, especially good when gloss or matt lamination is required
350	Extra heavy weight card	Business cards, postcards, suitable for lamination but too heavy for covers
Uncoated	Uncoated	Simple covers, standard text, basic printing
Silk	Ultra smooth / satin look	Great for colour print on white spaces, flyers, quality covers, posters
Gloss	Glossy look	Great for printing solid colours, flyers, quality covers, posters
